

**STUDENT RESEARCH PROGRAM
MENTOR INTERVIEW FORM**

(Required of first time participants and participants returning to a new mentor)

To the student: You are required to meet and discuss possible research projects with at least three faculty members before deciding on a mentor. These interviews may take place at the “Student Research Program Preview” or by individual appointment. After each interview, have the faculty member sign this form in the space indicated. When you have completed at least three interviews, rank your preference for faculty mentor in the appropriate boxes. The Office of Research will notify you of the final decision. We will make every attempt to match you with your first choice, but this may not always be possible.

Student Name: _____

I have spoken with the above named student concerning student research projects and am available to serve as a mentor.
