The University of Michigan School of Dentistry has long been associated with such a prestigious position. In continuing to focus resources on orthodontics and the scholarly activity associated with such a prestigious program. In recognizing the traditions of one of the premier orthodontic departments, the University of Michigan School of Dentistry's Orthodontics Program is considered among the preeminent specialty programs in the world. Indeed, much of the history of the specialty of orthodontics has been written by its faculty. In the same way, much of the future of orthodontics education, however, is not necessarily to be found in today's orthodontic faculty members. Unfortunately, in today's climate, the power of competition for junior faculty positions is not making it increasingly easier to maintain a world-class facility. With over 200 faculty positions in dental schools across America, the school for endowed faculty positions to refine and recruit faculty is more intense than at any other time in the history of dental education.

The University of Michigan School of Dentistry is a most befitting mechanism to recognize Dr. Johnston's paramount impact on the University of Michigan School of Dentistry's tradition as one of the premier orthodontic departments, and the need for endowed faculty positions to recruit and retain outstanding scientists. By its very existence, an Endowed Collegiate Professorship is a most befitting mechanism to recognize Dr. Johnston's contributions to the specialty of orthodontics and the mechanisms of facial growth, and the nature of the forces that shape an individual's smile. As such, we are pleased to announce the establishment of the University of Michigan’s Lysle E. Johnston Jr. Endowed Collegiate Professorship in Orthodontics and Pedodontics.

By Michael G. Behnan and Philip C. Warren

For the past 30 years, Dr. Johnston has studied the mechanics of growth, and the nature of the interaction between growth and treatment. Extraneous factors that could influence treatment have been controlled or excluded as much as possible. The results of more than 30 years of research have contributed to the education of more than 300 orthodontic residents and have provided the setting for a recipient of numerous honors, most notably the Albert H. Evans Award of the American Board of Orthodontics, the 5th International Award of the American Society of the Individual; the Great Awards of the American Society of Orthodontics. He has delivered the Minnesota and International Herbert Memorial Lectures of the American Association of Orthodontists, the Angle Memorial Lecture of the British Dental Society, and the Arthur D. Reitnauer, Jr. Medal Lecture of the Australian Society of Orthodontists.

At the University of Michigan, Dr. Johnston has served as a member of the department's faculty since 1971. He has been named Chairman of the Department of Orthodontics since 1986. He is a former member of the Orthodontic Research Committee and a former member of the History of Orthodontics Committee. He is a Fellow of the American and International Colleges of Dentistry and Pedodontics, and a Fellow of the Australian Society of Orthodontists. He is also a member of the American Association of Orthodontists, the Angle Society of Orthodontists, the American Academy of Facial and Oral Orthopedics, and the American Board of Orthognathic Surgery.

Dr. Johnston has received numerous awards for his contributions to the specialty of orthodontics. In 2006, he received the American Board of Orthodontics' Certificate of Merit. In 2005, he was awarded the Louise Ada Jarabak Memorial Orthodontic Research Award and the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 2004, he was awarded the American Board of Orthodontics' Certificate of Merit. In 2003, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 2002, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 2001, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 2000, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1999, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1998, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1997, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1996, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1995, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1994, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1993, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1992, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1991, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1990, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1989, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1988, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1987, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1986, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1985, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1984, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1983, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1982, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1981, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1980, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1979, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1978, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1977, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1976, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1975, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1974, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1973, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research. In 1972, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Education. In 1971, he was awarded the American Association of Orthodontists' Award for Outstanding Contributions to Orthodontic Research.

Dr. Johnston received his Bachelor of Science degree from the University of Michigan in 1963 and his Doctor of Dental Surgery degree from the University of Michigan in 1966. He completed his orthodontic residency at the University of Michigan from 1966 to 1968. Dr. Johnston later joined the University of Michigan faculty as an orthodontic assistant professor in 1966 and was a full-time orthodontic faculty member in 1971. He is currently a full-time orthodontic professor at the University of Michigan School of Dentistry.

The University of Michigan School of Dentistry has long been recognized as a leader in education, research, and patient care. The outstanding traditions of Graduate Orthodontics continue to be a major factor in the School's continued success. The University of Michigan School of Dentistry is a leader in orthodontics and the mechanisms of facial growth, and the nature of the forces that shape an individual's smile.

By its very existence, an Endowed Collegiate Professorship is a most befitting mechanism to recognize Dr. Johnston's contributions to the specialty of orthodontics and the mechanisms of facial growth, and the nature of the forces that shape an individual's smile.
March in two of our staff members received a promotion for their continuous service at the University of Michigan. Being recognized were Department Assistants, Larsa Leenhouts ‘96 and Patricia Santarsiero ‘03. The promotion announcement was made by Deirdre Meehan. We congratulate them and thank them for their years of service to the University of Michigan.

Larsa Leenhouts started working for the UM in 1971 while she was in high school. She worked at the University until 1976 when she was still in high school. She returned to work in 1985 after having worked at the University in 1985 after having worked at the University until 1976. In her free time, Larsa enjoys her wonderful granddaughter, grown children, Scott and Amy. Debbie has lived in Belleville all of her life. She moved to Michigan in 1985 after having worked at the University until 1976. She moved over from New York City to Michigan when she was 20 years old. She enjoys her wonderful granddaughter, her favorite hobbies are reading, traveling, and spending time with her family. Debbie is a member of the American Cleft Palate-Craniofacial Association. She is a member of multiple professional societies including the Edward H. Angle Society, AAO, and American Cleft Palate-Craniofacial Association.

Brett Johnson was born in Whitehorse, Ontario, Canada. When he was 16, he moved to Romeo, Michigan where he graduated from Romeo High School. He completed his D.D.S. in 2006 at the University of Michigan. He is an avid music fan and is always looking to expand his horizons. He enjoys hunting, fishing, sailing, and camping. He enjoys sports, but he is a family man. Brett is married to his wife of 20 years, Anne. He is the father of their two children, Marcus and Samantha. Brett is a college town. He is the family man.

Fatima Ahmed was born in Canada and raised in Cleveland, Ohio. She completed her undergraduate degree at the University of Calgary for her B.D.S. in 2002. Fatima is the daughter of Dentist. Fatima is the daughter of Fatima’s parents. Fatima is the daughter of Fatima’s parents. Fatima is the daughter of Fatima’s parents. Fatima is the daughter of Fatima’s parents.

Dr. Scott Conley Joins the Full Time Faculty

Dr. Scott Conley has been appointed to the Full Time Faculty Department of Orthodontics and Pediatric Dentistry. He will assume the full time faculty position in October 2006. Dr. Conley was born and raised in western Canada and calls it home. He attended the University of Victoria for his undergraduate degree and then returned to Canada for his dental degree. He completed his D.D.S. in 2006 at the University of British Columbia. Dr. Conley is the son of Dentist. Dr. Conley is the son of Dentist. Dr. Conley is the son of Dentist. Dr. Conley is the son of Dentist.

Dr. ConleyBushnell

Making the Correct Treatment Decisions for Even the Most Complicated Situations.” The primary topic will be “Adult Orthodontics in the 21st Century: Treatment, will present a one-day course at the Michigan Theatre on Liberty Street in Ann Arbor. The presentation will be held in the Screening Room of the Michigan Theatre on Liberty Street in Ann Arbor. The program should be of great interest to alumni and non-alumni alike.

We all welcome Dr. Conley to the University of Michigan. He completed his D.D.S. in 2006 at the University of British Columbia. Dr. Conley is an avid music fan and is always looking to expand his horizons. He enjoys hunting, fishing, sailing, and camping. He enjoys sports, but he is a family man.
