Graduate Orthodontics Launches the “Paperless Clinic”

Introducing the Class of 2010!
The past six months have been highly successful for the program faculty, who received significant recognition for their innovative research, organized dental society and research institutions as outlined below:

Dr. Scott Hatch was awarded the Robert E. Gaylord Teaching Fellowship Award from the AAO in 2008 and again in 2009 from the AAO/OMS Fund. He was also presented with a Certificate of Recognition by the School of Dental Medicine and the AAOMS. The award was given for “exceptional research on the pathobiology of the third molar.”

Dr. N. Scott Kapila, a postdoctoral research fellow and a junior faculty member in the Department of Orthodontics and Pediatric Dentistry at the University of Michigan, has been selected to receive the Orthodontics and Developmental Biology Award by the American Association of Orthodontists for his research on the role of fibroblast growth factor (FGF) signaling in tooth development.

Dr. Nan Hatch, a postdoctoral research fellow and a junior faculty member in the Department of Orthodontics and Pediatric Dentistry at the University of Michigan, has been selected to receive the Louise Ada Jarabak Award by the American Association of Orthodontists for her research on the role of fibroblast growth factor (FGF) signaling in tooth development.

Dr. Sunil Kapila, a postdoctoral research fellow and a junior faculty member in the Department of Orthodontics and Pediatric Dentistry at the University of Michigan, has been selected to receive the Orthodontics and Developmental Biology Award by the American Association of Orthodontists for his research on the role of fibroblast growth factor (FGF) signaling in tooth development.

Our new residents, who are practicing in California, and Dr. Vivian Chan, who is practicing in Texas, have been awarded the Lysle Johnston Jr. Endowed Collegiate Professorship, which has received strong support from several of your local students, colleagues, and friends. I am happy to inform you that an anonymous friend of the program has placed $50,000 in his trust toward the Lysle Johnston Jr. Endowed Collegiate Professorship. Although both professorships are coming along well, you need a boost to bring to completion. These endowments will help us maintain our competitiveness in recruiting and retaining top-notch faculty in this era of faculty attrition. Many of our local alumni who continue to support us in these times of dwindling state support.

As noted in the article, our faculty continue to receive major recognition and awards from many organizations and institutions of which we are very proud. In the past year, we also launched the Lysle Johnston Jr. Endowed Collegiate Professorship, which has received strong support from several of your local students, colleagues, and friends. I am happy to inform you that an anonymous friend of the program has placed $50,000 in his trust toward the Lysle Johnston Jr. Endowed Collegiate Professorship.
