

INSURANCE INFORMATION SHEET
Updated 10/2017

Due to many changes in insurance policies, it is no longer an easy task to interpret each individual policy. Although we try to stay aware of these changes, it is not always possible.

It is the subscriber's / patient's responsibility to know individual coverage benefits. Failing to comply with this suggestion could result in you, the patient, being responsible for all cost incurred.

Please remember your insurance policy is between you and your insurance company and not between the insurance company and your provider.
